

BUILD.

ANY SIZE. ANY COMPLEXITY. ANY PRO

THANKS FOR VISITING UNIVERSAL @ APEX 2018!

This year's **IPC APEX Expo** in San Diego, CA was a great success for **Universal Instruments**, thanks to visitors like you! We truly enjoyed the opportunity to meet with you and we extend **our sincerest thanks** for taking time to stop by our Booth 3141 to see what's new from Universal. We really appreciate your interest in Universal's solutions portfolio.

Since the booth was very busy, we want to make sure that you got all the information you needed on how Universal can help solve your specific production challenges.

Below are the products we featured on the booth, with links for additional information.

**** In case you missed the demonstration on our booth, [click here](#) to see the extended range of non-standard components that Uflex™ can place! ****

Uflex.

Ultimate flexibility. Simplified automation.

Uflex™ features a revolutionary architecture that enables user-level programming and field reconfigurability to speed time to market and dramatically shorten the payback period.

Build your best product with help from the APL!

Experts from Universal's Advanced Process Lab (APL) were on-hand to discuss your specific materials and process challenges. The APL offers comprehensive research, analytical and advanced assembly services which enable manufacturers to realize rapid product introduction, maximize yield and optimize reliability. Partner with the APL and take your product from concept to reality!
